Mr. James M. Frey
Deputy Associate Director
International Affairs Division
Office of Management and Budget
Washington, D. C. 20503

Dear Jim:

We received OMB Bulletin 75-9 early in November. Since it did not call for negative responses, we assumed no action was necessary.

We have now received from Mr. O'Neill a memorandum dated February 4, 1975 asking for a specific response. Accordingly, this letter records that the Central Intelligence Agency has identified no legislative changes required to implement the shift to the new fiscal year.

Sincerely,

STAT

John D. Iams
